DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of group I, claims 1-12, 16, 18 and 20 in the reply filed on August 7, 2006 is acknowledged. The traversal is on the ground(s) that there is little, if any additional burden to examine all claims. This is not found persuasive because the compound in group I has a nitroso group bridging the two phenyl rings; the compound in group II has an amino group bridging the two phenyl rings with a sulfonamide attached to one of the rings; group three has an amino group and a carboxamide attached to one of the rings; group IV can be joined together with group III. Either way, the inventions of groups II-IV, or II and III if group IV were joined with group III, are drawn to different, patentably distinct classes of compounds.

The requirement is still deemed proper and is therefore made FINAL.

Claims 13-15, 17 and 19 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on August 7, 2006.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1621

Claims 12, 18 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 12, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Claims 18 and 20 provide for the use of a compound of formula I or formula II, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claims 18 and 20 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Art Unit: 1621

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Palazzo (US 3,470,194).

Palazzo discloses the compound, N-(2,6-dimethyl-3-dimethylsulfamoyl)-phenyl-anthranilic acid (col. 6, line 61). This compound anticipates the instant claims.

Claims 2-10 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The examiner would like to direct applicants' attention to the fact that applicants have not marked the box on the Oath/Declaration indicating whether or not foreign priority is being claimed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sikarl A. Witherspoon whose telephone number is 571-272-0649. The examiner can normally be reached on M-F 8:30-6:30.
